

# *Grievance Committee*

Grievances are a vital part of our role in supporting and representing our members. As we move forward with our first collective agreement which will essentially map out the rules and obligations between the employer and member, someone has to hold them accountable. Grievances are filed against the employer when they are in violation of this agreement.

I want to be **YOUR** representative on the grievance committee. Already attending several meetings as a Shop Steward has allowed me to first hand experience the importance of proper member representation. Being an integral part of the grievance committee allows me to further enhance my relationships with Cabin Crew Members. The ability to file grievances allows me to hold the employer accountable and make working conditions better for all members.
